

Where the Auto Racers Will Rush Faster Than the Wind

View of the First Turn from the Grand Stand

EXPECTS BIG FALL BUSINESS

Great Western Spending Large Sums Preparing Roadbed for the Rush.

NEW EQUIPMENT INSTALLED

Great things are being done on the Chicago Great Western, though no stir has been made over it, asserts Superintendent Derr, who has come in from Clinton, Ia., where his headquarters are located.

According to Superintendent Derr practically all of the Great Western system is being installed, new ties and steel rails are being put in, the bridges being strengthened and the lines being really rebuilt. Said the superintendent:

"Anticipating the biggest crops that have ever been raised in our territory we are getting ready to handle them. From Omaha, both east to Chicago and north to St. Paul and Minneapolis, we are doing a great deal of work in putting the lines in first-class condition. We expect to continue until we have a road that is second to none and one that will be a favorite with the shippers and the traveling public. The money being expended on betterments to grades and tracks will amount to hundreds of thousands of dollars and will continue during the entire summer. Every mile of the road will be gone over and put in the best possible condition.

"The crop conditions are good everywhere, and an enormous quantity of grain will begin to move within the next six weeks. This movement of grain out of our territory means a correspondingly heavy movement of freight in. Merchants' stocks have run low and the merchandise that will come in for fall and winter trade must be enormous. Then with good crops I am looking forward to great activity in building, both in the cities and towns and on the farms. This means that the quantity of building material of all kinds that must be brought into the country will be the greatest of any corresponding period in many years.

"Already business has commenced to boom and on all the divisions of our road there has been a material increase within the last month or so."

The Great Western has gone after the Omaha-St. Paul and Minneapolis passenger business, and in doing so has new steel equipment on its Nos. 11 and 12, the Omaha-Twin City limited trains. Besides the all steel sleepers, club cars, new and just out of the shops, have been installed.

MILLIONAIRE KIDS FROM EAST LOOK OVER OMAHA

The sons of eastern millionaires arrived in Omaha yesterday in a private car over the Northwestern, but instead of

twenty, the number had dwindled down to ten who are to dare the wilds of Wyoming, catching trout and shooting sage hens. The boys, who are 15 to 18 years of age, spent most of the day at the packing houses, going west on the

Northwestern's Lander train in the afternoon.

NEW \$750 PRICE
Cars Ready for Delivery Now

It has more features of high priced cars than any other car in the moderate price car division—long stroke, ball-bearing motor, platform rear springs, full floating rear axle, multiple disc clutch.

It is the most stylish car in the moderate price division—it is distinctive, yet not freakish, combining the best and most advanced ideas of European and American designers as to streamline effects.

It is an exceptionally powerful, sturdy car, built to give long service under the most severe conditions. The use of ball bearings throughout reduces friction to a minimum, delivering greater power to the rear wheels than any other motor of similar cylinder displacement, at less expense for fuel.

A comparison of specifications and demonstration seldom fails to convince the hard-to-please buyer of the superior value of the Deltroler "Four."

Fred C. Huffman Motor Car Co.
2204-06 Farnam St., Omaha

This is an adult car—wide doors and has surplus room for five passengers. Come in now, we are ready to make actual delivery. No, this is not a misprint, the new price is \$750.

At A Price That Will Appeal to All
HUDSON "SIX-FORTIES"

THERE are still a few of the famous "Six-Forty" Hudson Touring Cars in my warehouse that have been used by my salesmen as sample cars. These are not second hand cars but are new machines, and I now offer them for sale at a greatly reduced price.

THINK of it—The greatest Light Six ever built, Electric Lights and Starter, One Man Top, Non Skid Tires, fully equipped, and at a price. Well, come up and look at them, and I know you will be sure to purchase one.

REMEMBER you must act quick if you wish to secure one of these cars.

FOR the convenience of patrons our show room is open Sundays and evenings, and my entire sales force will take great pleasure in showing you these Cars.
